VI. Language Assistance Plan (LAP)

FTA Circular 4702.1B was developed by the Federal Transit Administration (FTA) and details the administrative and reporting requirements for recipients of FTA financial assistance to comply with Title VI and related executive orders including on LEP (Limited English Proficiency) persons.

The United States Department of Transportation (DOT) published guidance that directed its recipients to ensure meaningful access to the benefits, services, information, and other important portions of their programs and activities for LEP customers. Fort Hudson Language Assistance Plan (LAP) includes a four factor analysis and implementation plan that complies with the requirements of the DOT LEP guidance.

1. Identifying LEP (Limited English Proficiency) Individuals

LEP Individuals are those individuals speaking a language other than English or using sign language that request assistance. Fort Hudson does not currently have any individuals that require any other help other than English, Sign Language or Prompts.

2. Providing Services

Fort Hudson does not currently have an on-going need for professional translation Services, through its own, Fort Hudson will contract with translation services as needed.

3. Communicating Availability of Language Assistance

Fort Hudson will inform those who request services of the process to provide an independent contractor for translation.

4. Monitoring

Satisfaction Surveys offer an opportunity for individuals served and their care givers to provide input or suggest additional services. To date Fort Hudson has not had the need to use translation services provided by either in-house staff through outside providers

The Title VI Plan will also be reviewed every three years.

5. Employee Training

As part of the Accessibility Plan, Fort Hudson encourages staff interest and education in learning to more effectively communicate with individuals served.

VII. Safe Harbor Provision

The federal Transit Authority Circular 4702.1B states

"DOT has adopted DOJ's Safe Harbor Provision, which outlines circumstances that can provide a "safe harbor" for recipients regarding translation of written materials for LEP populations. The Safe Harbor Provision stipulates that, if a recipient provides written translation of vital documents for each eligible LEP language group that constitutes five percent (5%) or 1,000 persons, whichever is less, of the total population of persons eligible to be served or likely to be affected or encountered. Then such action will be considered strong evidence of compliance with the recipient's written translation obligation. Translations of non-vital documents, if needed, can be provided orally. If there are fewer than 50 persons in a language group that reaches the five percent (5%) trigger, the recipient is not required to translate vital materials but should provide written notice in the primary language of the LEP language group of the right to receive competent oral interpretation of those written materials, free of cost.

These safe harbor provision apply to the translation of written documents only. The do not affect the requirement to provide access to LEP individuals through competent oral interpreters where oral language services are needed and are reasonable. A recipient may determine, based on the Four Factors Analysis, that even though a language meets the threshold specified by the Safe Harbor Provision, written translation may not be an effective means to provide language assistance measures. For example, a recipient may determine that a large number of persons in that language group have low literacy skills in their native language and therefore require oral interpretation. In such cases, background documentation regarding the determination shall be provided to FTA in the Title VI Program."

VIII. Membership of Non-elected Committees and Councils

Fort Hudson does not have a non-elected transit related advisory council at this time.

IX. Title VI Equity Analysis

Fort Hudson does not have transit related facilities.

Appendix C: Public Participation Plan

NOTE: Fort Hudson transportation services are limited to those directly receiving services from Fort Hudson, and not the general public. Transportation services are determined by program need, regulatory requirements of the programs and client requirements. There is no public participation indicated due to the limited nature of services. The following is provided for reference only.

All applicants for Federal Transit Administration (FTA) financial assistance are required to ensure their programs, policies, and activities comply with US Department of Transportation (USDOT) Title VI of the Civil Rights Act of 1964. In order to comply with 49 CFR Section 21.9(b), sub recipients must develop, and submit to NYSDOT, a Public Participation Plan, which includes information about outreach methods to engage minority and limited English proficient populations (LEP), as well as a summary of outreach efforts made since the last Title VI Program submission.

The goal of a sub recipients Public Participation Plan is to offer early, often, and continuous opportunities for the public to be involved in the identification of social, economic, and environmental impacts of proposed transportation decisions. The plan should provide adequate notice of public participation activities, as well as early and continuous opportunities for public review and comment at key decision points.

Sub recipients should determine how, when and how often specific public participation activities should take place, and what specific measures are most appropriate. Sub recipients should make these determinations based on:

- The composition of the population in your service area;
- The type public involvement activities you have planned;
- The resources available to your Agency

For any change in service, even regular changes, public information sessions or website updates must inform low-income, minority and LEP populations directly. Sub recipients must be able to show these populations have been notified of the change by documenting the outreach activities and response.

In order to integrate Title VI, Environmental Justice (EJ), Limited English Proficiency (LEP), sub recipients should seek out and consider the viewpoints of minority, low-income, and LEP populations in the course of conducting public outreach and involvement activities.

Outreach to low-income minority and LEP populations should include phone contact with relevant local organizations for these populations prior to any changes. Local organizations include Community Based Organizations, advocacy groups for immigrants, Independent Living Centers, just name a few. Public information sessions provide translation for LEP populations, and location must be accessible to impacted people by transit.

Sub recipients should always document when and how groups were contacted, and the type of meeting they were invited to. Minutes and records of responses must be taken down in written for review and be held for response. Sub recipients are required to certify they have

fulfilled the Inclusive Participation requirement, by providing a summary of outreach efforts as part of their Title VI Program submission.

Sub recipients should consider the following effective practices when developing a public participation plan:

- Use locations, facilities, and meeting times that are convenient and accessible to low-income and minority communities;
- Coordinating with individuals, institutions, or organizations and implementing community based public involvement strategies to reach out to members in the affected minority and/or low-income communities;
- Placing public notices of activities in all stations and in all vehicles; provide alternative language notices for LEP communities in your service area
- Provide opportunities through means other than written communication. Consider personal interview or use of video or audio to capture community feedback from LEP populations;
- Use different meeting sizes and formats that are tailored to your particular communities or populations;
- Utilize social media, such as Facebook and You Tube to complement, but not replace, other involvement strategies;
- Consider non-traditional methods such a posting notices in hair salons, street fairs, faith-based institutions, libraries, etc.

Sub recipients can refer to, the NYSDOT Office of Policy, Planning and Performance developed a handbook entitled Public Involvement for Transportation Planning, which is available online at ([link to website](#)).
